Hello,

Thank you for taking the time to speak with me this morning. I have attached a PDF copy of the plans for your review.

My inquiries include:

- What type of permits we will need to pull (Building, Electrical, Health?)
- How many sets of plans will be needed?
- Is there a fee up front for plan review?
- Is there any sort of expedited review, possibly for an additional fee? Our scheduled construction start is 8/20 so every day counts.
- I noticed that the mailing address is a PO Box. I only have access to UPS from my office, is there any way plans could be sent in to your office directly?

If you have any questions please let me know. I look forward to hearing back. Thank you, again!

Regards,

Timothy Day
