Subject: Cameron Carrier Annex  
Cameron, NC  
Project Number C97932

Dear Sir:

The United States Postal Service intends to undertake the build-out of the space located at 196 HM Cagle Dr. We are relocating our carriers from the Cameron Post Office. The scope of work for this project includes installing a concrete floor, the plumbing, electrical and HVAC systems, and ceiling systems. Documents are being prepared and a proposal from the contractor will be solicited in May and that construction will begin in June.

In accordance with Postal Accountability and Enhancement Act, we wish to provide Harnett County Inspections the opportunity to review and comment on this project as well as conduct inspections.

If you wish to conduct such a review, please reply to this letter within seven (10) calendar days. Upon receipt of your reply, and when the documents are complete, we will provide you with a set of plans at which time you will have fourteen (14) calendar days to complete your review. Comments received within the fourteen (14) days will be given due consideration. We will provide you a written response to your comments, indicating the disposition of each item.

Additionally, we wish to provide officials the opportunity to conduct inspections during this project, in accordance with the customary schedule for such inspections. If you intend to conduct inspections of the work you must provide the Postal Service a copy of an inspection schedule before the project has commenced and give reasonable notice of the intention to conduct any inspection before it is conducted.

Please note that the Postal Service is exempt from paying fees for plan review and/or inspections for on-site work. If you choose to accomplish these reviews and/or inspections, the Postal Service will not be able to reimburse you for these services.

If you have any questions please contact me at 336-605-3532. Thank you for your cooperation.

Sincerely,

Christopher G. Dull  
Facilities Project Manager
