Banks, Good morning I hope and your family continue to be safe these days! To address your concerns about all the products (toppings) that we supply for our program I have attached a few pics to assure you that all of them are pre cooked and frozen when they arrive at each of our locations. The toppings are then placed on the frozen pizza crust and directly placed on the oven.

Are wings and wing bites are also fully cooked and frozen when they arrive to each location where they are kept frozen until they are cooked!

I have attached some photos! Please email me back as soon as you can and let me know that this resolves your concerns.

Additionally we spend a whole day of training with safe food handling and how to satisfy the guidelines set out by the state health and other agencies.
