Dear Mr. Morris:

As of November 29, 2022, we have received and approved inspection comment documentation and received approval from licensure of the operation and evacuation procedures that were submitted for the seclusion room for the reference project. We have notified Acute and Home Care Licensure Section that this project, which includes adding 16 beds under the 27G .6000 program for a total capacity of 32 beds, was recommended for use as of November 29, 2022. This completes the documentation needed for us to close out our files for this project.

Please use our Project No. HL-11358-MAS/TKM and FID No. 120572 on all correspondence related to this project. If you have any questions or if we can be of any further assistance, please contact our office at the telephone number or e-mail address listed below.
