Disclaimer

1. This report (and any attachments) shall not be reproduced except in full without prior written approval of ECS.
2. The information in this report relates only to the sample test specimens obtained on the date sampled.
3. The primary purpose of this report is to present the laboratory test results for the indicated sample test specimens. For a full compliance evaluation of construction events that the specimens represent, this test report must be used in conjunction with the related field report.
4. Non-conforming test results will be recorded for future resolution.
5. Test results that do not meet the required strength levels at the specified ages are marked "LOW TEST RESULTS".
