versatility

Partitions are often the subject of not only wear and tear, but also abuse due to repeat and extended usage. Solid Partitions High Density Polyethylene (HDPE) options will prove to have the durability and standards to adhere to a wide range of design specifications. Our HDPE materials have been proven to sustain some of the toughest environments in schools, offices, restaurants, and sports complexes. Custom CNC manufacturing and stock color options set us apart from the rest. Our standard 15 Year Warranty ensures 100% customer satisfaction on products that will with stand the test of time.

why solid?

A unique approach can be defined in many ways. Our In-House operations and custom design procedures ensure quick order turn around times, and design customization of all kinds. Our seamless operations generate results. We stand by our products and it shows.

solid partitions
