Ok. I will need to input a building application for each one. Make sure job costs are separate for each one. If 3 of them are the same, then send me one building app and I will then need the other one for the conditioned one. I will also need a land use for each one. I know you sent a land use, but I need the dimensions written on for each of the 3. Then I will need measurements for conditioned one.

There are a total of 4. Only one is conditioned.

How many buildings are being put up? Are they all the same or are some air conditioned?
