Re: Summary of Construction Materials Testing

**Cameron Commercial**

Cameron, North Carolina

TME Project No.: #220075E

Mr. Dickinson:

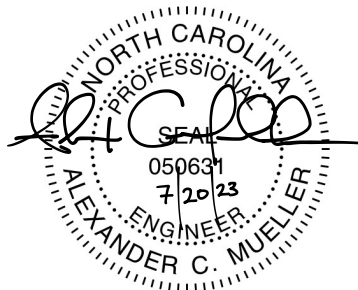

TM Engineering, Inc. (TME) has provided construction materials testing services for the above referenced project including structural steel components. The structural steel components observed, including bolting and welds, were found to be installed in general accordance with the provided plans and specifications with no open discrepancies to our knowledge. This letter provides a summary of observations documented in our field reports and is not a warranty. No performance guarantee should be assumed.

TM Engineering appreciates the opportunity to have provided our services on this project. Please contact us if you should have questions regarding this information or if we may be of further assistance.

Thank you,

**TM Engineering, Inc. (C3201)**
