The state application is for a max of 3 clients. This would exempt it from the requirements of the building code, and a building inspection would not be required.

Until I get confirmation from Brad that he doesn't need anything, then I cannot issue permit.

Unless anything changes we can handle it after the fees are paid.

The reason all this was started this way, is that she said she needed an inspection form you, building and health and sanitation. The other two departments never go out without proper permits and fees being paid, if needed.
