

Pool Drain Safety Compliance Data
PERMIT CANNOT BE ISSUED IF FORM IS INCOMPLETE

A separate form is required for each pump including circulation, jet or feature.

Name of Pool Wood Grove Amenity Center ID# _____

1. Pump Flow

Pump Manufacturer Hayward Model # SP3250EE Horsepower 5 HP

Maximum Pump Flow at highest speed **FROM PUMP CURVE:** 195 gpm. Pump use: Circulation / jet / feature (circle one)

Has pump been serviced (disconnected from power for any reason) or changed out in last 12 months? YES / NO

Flow meter manufacturer FloVis Flow meter reading 175 GPM

2. Drain Sump Measurements Is drain cover sumpless? YES / NO

Sump manufacturer and model AquaStar - 9MF101SSB OR: Field built sump (circle if yes)

Diameter of pipe entering sump 4" inches. Pipe enters through BOTTOM / SIDE of sump (Must circle one)

Distance between highest point of outlet pipe and top edge of sump 3 1/2 inches. Sump dimensions 10.5" x 10.5"

3. Drain Cover Data – MUST BE INSTALLED PER MANUFACTURER’S INSTRUCTIONS- Attach Instructions to form.

Number of main drains on each pump 2 Distance between main drains (on centers) 5 feet 2 inches

Cover/grate manufacturer AquaStar, model 9MF101, VGBA approval 2008 / 2017 (circle one)

Flow rating from instructions: 258 gpm Cover(s) located on pool: Floor / wall (circle one)

Date installed TBD - Will Update Lifespan 7 Years EXPIRATION DATE TBD - Will Update Once Installed

4. Equalizer Covers

Number of operable skimmer equalizers N/A Have the equalizers been permanently disabled? YES / NO

Equalizer fitting Manufacturer N/A, Model N/A, Lifespan N/A

Bulkhead adaptor Manufacturer N/A, Model N/A, Date Installed N/A

Diameter of equalizer pipe N/A Cover is located on (circle where mounted): Floor / wall

Equalizer fitting maximum flow rating N/A gpm.

Date equalizer cover/grates installed N/A EXPIRATION DATE: N/A

5. Safety Vacuum Release System (SVRS) – Safety Vacuum Release System manufacturer/model# - N/A

You will be required to demonstrate effectiveness during permitting inspection. Date last tested _____

6. Vacuum Line Choose One

 No vacuum line in pool **OR** Protective cover on vacuum lines installed before May 1, 2010, **OR**

Yes Self-closing, self-latching cover designed to be opened with a tool on vacuum lines installed after May 1, 2010
