Good morning Cynthia,

Thank you for taking the time to review and email me about Woodgrove.

See responses below:

1. Will there be deck drains?
  - a. Even though they are not shown, there will be deck drains installed between the pool and back porch to prevent water from entering the building and running to daylight.
2. The overall length of the pool on the plans is 45' 2" but the data block shows overall length of 42' 2". Can you state which is correct?
  - a. The overall length of the pool is 45' 2". The data sheet shows a typing error on my part. My apologies for that.
3. No soap dispensers are shown on the lavatory areas on the enlarged restroom plan.
  - a. There will be soap dispensers installed once the building is complete. This is a design choice by our owner to not show these on the plans because he is requiring the HOA to provide these for installation.
4. The autofill line is reflected on P2 water supply but is not included on the SP4 enlarged pump room plans.
  - a. The autofill line will come directly from the RPZ in the pump room and run underground to the pool. Depending on the project, I don't typically show this in the enlarged pump room plan but can include it in the future if you would prefer. I do show the autofill line coming from the pump room to the pool on SP3.2 (Return & Suction Plan).

Let me know if this clears up all your questions and if you have any further questions.

Thanks,  
Joey Davis
