RE: Springs of Ballentine

Mr. Conte,

This letter is to provide our stance on the use of CPVC water pipe and non-metallic sheathed cable on the above referenced project.

1. CPVC pipe is an acceptable material for all water piping within the building.
2. Nonmetallic sheathed cable is acceptable with the following conditions.
  - a. Locations permitted by Article 334.1 of NFPA 70.
  - b. As permitted by the NC Department of Insurance (NCDOI).
  - c. As permitted by NC Department of Health Service Regulation (NCDHSR).
  - d. As permitted by Harnett County Inspections.

If you have any questions, feel free to call me at 252-902-9352. Thanks.

Sincerely,

L. Michael Stroud, PE
