Subject: Submittal for Health and Fire Marshal Review

Ms. Johnson,

As per our discussion we have submitted electronically a set of Construction Documents for plan review by the Fire Marshal for his review. The GC will have the sprinkler contractor submit drawings for sprinkler modifications and drawings for hood modifications.

Attached please find a hardcopy set of drawings for health department review. The State health department has reviewed and approved the project.

The Existing Food Lion store is to receive renovations that include the following:

Exterior: Existing Food Lion exterior facade signage is to remain; no work is expected on the exterior of the building. Some services items under the canopy will be new or relocated. There may be some maintenance/ repair of damaged finishes as necessary when the contractor gets on site.

Interior: Renovated area is approximately 16,500 SF. New and relocated checkouts and a new kiosk. There will be new paint finishes in most areas of the store, some new low walls at the checkouts, the existing marlite in sales area is to remain, some new / relocated lighting, adding of misc. equipment in the lounge, associate training room / department managers office. Some of the existing refrigerated cases on the sales floor will be replaced with new or relocated. Some new/ relocated equipment will occur in the deli bakery.

Food Lion intends to bid the project out while the project is being reviewed by the county health and Fire Marshal.

Please let us know if you require any additional information. Thank you for your consideration.

Sincerely,

YATES-CHREITZBERG-HUGHES ARCHITECTS
