4 May 2023

Specifications

1 facility with no increase in daily flow (Gallons Per Day)

1000 gallon septic tank (ST)
1000 gallon pump tank (PT)
Connect to existing drain field and install new pressure manifold
not present:
• 90' nitrification lines,
• trench bottoms according to Harnett County
• Improvement Permit # 03-5-5756 (20213) dated 8/13/03.

Remove existing ST. Have tank pumped by and approved seepage hauler, covered, and backfilled.

Drainage shall pass at least 30' below utility easement or any other area subject to vehicular traffic.

Drainage system, repair area, and utility easement shown on IP # 03-5-5756 (20213).

Drainage ditch shall be filled in or relocated to maintain required setbacks to system components.

System shall be evaluated using hand augers in accordance with 15A NCAC 18A .1900 regulations and is submitted in accordance with G.S 130A-336.2 .
A pre-construction conference shall be held between the Licensed, Installer and the Licensed Soil Scientist of record to determine location and installation depth. Additional permit conditions may be added during pre-construction conference.
All work shall be approved by Licensed Soil Scientist to be done prior to covering any part of system.
System shall be for strength wastewater only.
