Contractor: **Presmont Fuel Systems LLC**

Details:

Vicky will check with the architect to find out where the grease traps are located or will be on plans and then she will call me back and let me know when reviewed.

Kristin Juala with Cape Fear Air submitted a single trade mechanical app by email. I emailed her back saying this info needs to be given to the the GC and added onto their building app. She also send cc info. I informed her that I cannot hold cc info so she will have to call and pay after the building permit is paid for.

070825 @ 9:30am sent email to contractor that building app needed to be completed and returned with signatures, names and fees.

Per Vicky Payseur on July 17th at 2:02 pm, the grease trap will be adequate for the store.

Per Brad, the refrigeration license will be sufficient for the mechanical scope on this project.
