Re: La Cosecha Snacks
161 S McKinley St.
Coats, NC 27521

The plan review for the above-mentioned facility is disapproved for the following reasons:

1. The resubmitted application was not complete. Provide a completed food service application. Pages 6, 7, 9, 10 were submitted.
2. Provide a set of plans drawn to scale showing all equipment, storage areas, trash can wash facilities, bathrooms, plumbing, electrical and lighting drawings. Each piece of food service equipment must have a corresponding equipment specification sheet. Several pages submitted for equipment were not adequate and did not provide enough information to properly review.
3. As discussed on previous phone conversations, the kitchen is lacking basic equipment such as a handsink, a preparation sink with a drainboard, 3 compartment dish sink, air-drying space and dry storage. Plumbing details must be provided for all sinks and water using fixtures. These were some of the more obvious deficiencies noticed when reviewing the information submitted. This is not a complete list of items. A more detailed list will be provided when the above requested information is submitted.

Please submit information in a PDF format to Michelle Myatt at Harnett County Central Permitting.

If you have questions regarding this letter or plan review, please call me at (910) 893-7547 or email to jturlington@harnett.org.

Sincerely,

Jamie Turlington, REHS
Harnett County Environmental Health
