

K220GDR/SDR/SDF Refrigerators & Freezer

USES: / CLINICAL APPLICATIONS / VACCINES & MEDICATIONS / BIOLOGICS / DIAGNOSTICS KITS / MOLECULAR BIOLOGY / INDUSTRIAL TESTING

K2 Scientific's 20 cu. ft. refrigerators and freezer are perfect for storing vaccines. Engineered with precision, these refrigerators are meticulously crafted to optimize space utilization without compromising on performance. These refrigerators provide the ideal solution for maintaining the integrity and effectiveness of your temperature-sensitive materials.

K220GDR

K220SDR

K220SDF

- Intelligent microprocessor controller with digital display and adjustable temperature control
- Static defrost on refrigerators, manual defrost on freezer
- Audible and visual high or low temperature alarms
- Magnetically sealed door with rapid cool-down mode after door opening
- UL listed (K220SDF only)

- Efficient, exterior, switch-activated interior LED lighting
- Shelves are adjustable by 1" increments
- Easy swivel casters
- Keyed door lock
- Forced air circulation aids temperature stability and uniformity
- Energy Star Rated (K220SDF only)

- R600a refrigerant (R290 refrigerant for K220SDF), environmentally green, EPA SNAP compliant
- Cabinet constructed of white powder-coated steel with CFC-free, high density insulation
- Three quality control checks prior to shipping
- Warranty: Two-year parts, labor, or full replacement
