Re: RESUBMITTAL (full) with revised plans — Veloce Planes Mezzanine, 559 Airport Rd

Michelle,

As discussed, we are resubmitting our permit package in full with a revised plan.

The ONLY change from the prior submittal is the LOCATION of the mezzanine: it now runs along the BACK (100-ft) wall instead of the side. It is the same mezzanine — same size, same structure, deck at 12'-0" above the floor.

There is NO change to:

- the building shell, footprint, or exterior
- the use / occupancy
- the square footage or valuation
- the application forms (answers are unchanged from the prior submittal)

Enclosed package (resubmittal):

[ ] This cover letter
[ ] Commercial Building Application (unchanged from prior submittal)
[ ] Commercial Land Use Application (unchanged)
[ ] Fire Marshal Plan Review (unchanged)
[ ] Mezzanine Plans — REVISED (Rev 1, mezzanine relocated to back wall)
[ ] Mezzanine Cost Estimate (unchanged)
[ ] Pre-Development Application (include if your checklist requires)

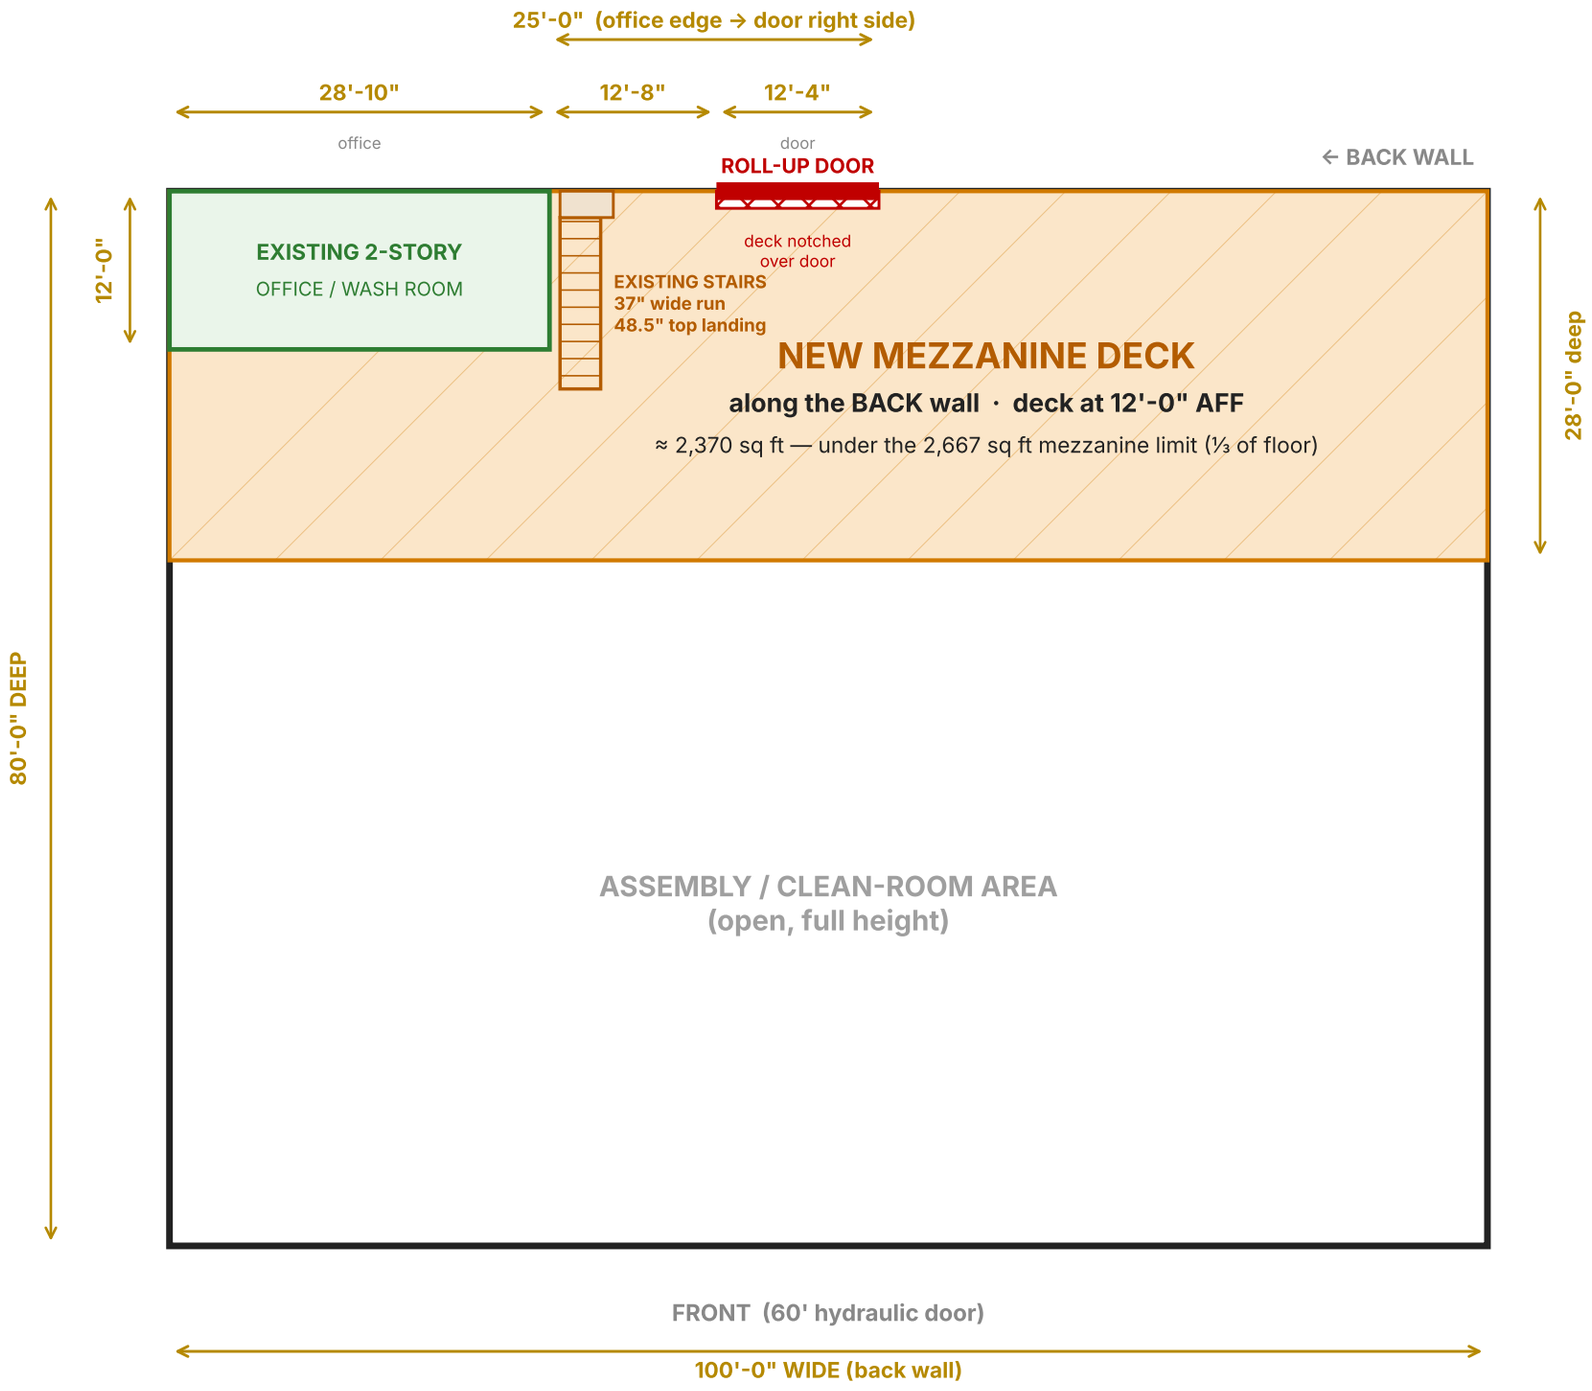

We have not paid the prior fee (per your note to wait and resubmit), and we will not begin the revised work until this resubmittal is approved.

Please let me know if you need anything else to process it. Thank you.

Sincerely,

Jamie Fettig
Veloce Planes LLC

REVISED PLAN — MEZZANINE ON BACK WALL

VELOCE PLANES LLC

559 Airport Rd, Erwin NC

SHEET	**A-1 R1**
CHANGE	**mezzanine → back wall**
BUILDING	**100'W x 80'D = 8,000 sf**
DECK	**12'-0" AFF, 28' deep**
MEZZ AREA	**≈ 2,370 sq ft**
OFFICE	**28'-10" x 12'-0"**
ROLL-UP	**12'-4" wide**
position	**12'-8" off office**
STAIRS	**37" run / 48.5" landing**
DATE	**2026-11-05**

ALL FIELD-MEASURED

office 28'10"x12' · stair 37"/48.5"

door offsets 12'8" & 25'

(door width = 25' − 12'8" = 12'4")

back wall 100' · depth per 8,000 sf
