Garage Foundation and Building Final Inspection

Based on the request of the Contractor, I inspected the footings, foundation and completed Garage on Thursday, June 18, 2020 for code compliance. My assessment and recommendations are as follows:

- The footings and foundation were constructed as shown on the approved plans. A modification to the footings was also prepared by David Miller, PE. The footings, modified footings and foundation are acceptable.
- This garage is complete with all disciplines installed as required by the residential building code. All items, as shown on the approved plans, have been completed and are acceptable.

The footings, foundation and building final for this garage meets all the requirements of the 2018 North Carolina Building Code for Residences.
