317 Vick Keith Rd.  
Sanford, NC 27332  
DEL Builders, Contractor,

Dear Sir/Madam,

I made an onsite visit to the above referenced residential building site on May 28, 2019. The purpose of the visit was to follow up on the recommendations that I gave the contractor for soft soil in the footing trench. The recommendations were done and stone was placed in the under cut area and rebar was in place. I gave the contractor permission to pour the footing. The footing will support the live and dead loads per the NC State Building Code, 2018,ed.

If you have any questions please feel free to call me at 774-6074.

Sincerely,

Robert J. Bracken, PE
