Re: Manufactured Home Raised Elevation
235 Nutgrass Rd.
Bunnlevel, NC 28323

To Whom It May Concern:

Chicora PLLC observed the manufactured set up for the home and it has been installed in regards to the standard manufactured home installation guidelines.

The manufactured home has been raised over 48 inches in height due to the existing grade. The manufactured home has the Engineered Foundation System installed beneath the structure. Based on the raised elevation Chicora, PLLC recommends adding additional cross strapping to help provide additional support and stabilization for the structure.

Chicora, PLLC appreciates the opportunity to help you with this. Should you have any questions or need additional information; please contact me at your earliest convenience. I can be reached at 910-740-0725 or at dlowery.chicora@gmail.com.

Sincerely
Dennis Lowery, PE
