Sanford, NC 27332
Stephanie Johnson, Owner

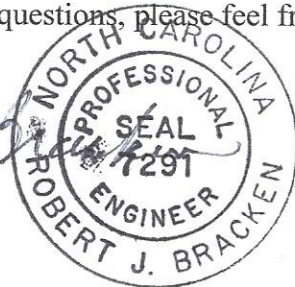

Dear Sir/Madam:

I made several onsite visits to the above referenced Residential site during June , 2020. The purpose of the visits was to examine the materials and construction that was done on a room that was attached to a double wide mobile home. The attached room does not effect the structural integrity of the mobile home and is self supporting. The LVL beam was designed by me and the other materials were acceptable. The construction procedures used on the room were somewhat unorthodox but overall the room is safe and acceptable and will support or resist the applied loads as specified in the North Carolina Residential Building Code, 2018,ed.

If you have any questions, please feel free to contact me @ 919-774-6074.

Sincerely,

Robert J. Bracken, PE
