Installer: Total Solar Solutions
Customer: Christopher Petoletti
Subject: PV System Post Construction Inspection
Date: 9/29/2020

To whom it may concern:

Model Energy, PLLC performed a site visit at 93 Bennett Rd, Coats, NC 27521 on September 29, 2020 and has reviewed the installation details of the PV system that was installed by Total Solar Solutions and has reviewed the pre-installation structural letter submitted by Right Angle Engineering. The review was limited to the structural elements involved in the construction. Please note, Model Energy has not validated the engineering performed by the above referred company but has only inspected the installation to confirm that it was installed according to the engineer's specifications.

The structural installation of the PV system was found to be installed in accordance with the pre-installation structural letter by Right Angle Engineering. As such it shall not create a negative impact on the building's structural design and is in compliance with the North Carolina Building code.

Thank you,

Andrew King, PE
