Re: Footing Excavation
306 Sugg Road
Dunn, NC

To: Harnett County Inspection

Dear Sir or Madam:

On February 24, 2021 I made an onsite visit to 306 Suggs Road in Dunn, N.C. The purpose of this visit was to make an inspection of the footings excavation for the proposed 60x27 Double wide mobile home at this location. The contractor plans to use pour concrete footings for the foundation. I was able to check the soil bearing capacity around the perimeter and load bearing piers for the mobile home support and the on-site plan dimensions of the footings.

I will certify that the dimensions and the soil bearings for the excavated footings are adequate. The NC Regulations for Manufactured Homes 2004 Edition was used for this report. If I can be of any more assistance, please feel free to contact me.

Yours truly,

Wayne R. Dashfield, PE
