Special Inspection FINAL SUMMARY REPORT

March 19, 2021

Harnett County, NC
Development Services
ATTN: Special Inspections

RE: Project Name: Nelson Residence
Project #: SE21-057
Permit #: BRES2102-0048
Address: 10110 NC-27, Lillington, NC 27546

Dear Building Inspection Division:

This letter serves to certify that in accordance with the building code requirements outlined in the General Structural Notes of the approved permit drawings dated, 2/22/2021, SFA Design Group has performed special inspections for the project referenced above. By visual observation and reviewing all available field data, we can confirm that Southeast Foundation & Crawl Space Repair installed (9) FSI SJQ350 Smartjack system per the intent of the design generated by this office, and any installation deviations are approved with no outstanding non-compliance items.

Our inspection and testing services do not constitute a warranty or guarantee of any type and were provided with the intent of helping reduce the risk of construction defects, deficiencies, or omissions that may arise during and after construction. It is the contractor's responsibility to perform their work in accordance with the approved construction documents. All inspections and tests were performed and reported according to the requirements of the county Building Regulations and these Administrative Rules. To the best of my knowledge, the work was performed in conformance with the applicable workmanship provisions of the State Building Code and Standards.

Sincerely,

Mohamed El Katrani, EIT
