Dear Mr. Dent:

Thank you for using D. Allen Hughes Engineering to conduct the evaluation for your project. As requested, the site was visited on November 2, 2021 and November 23, 2021 to observe the foundation and anchoring system of the home.

D. Allen Hughes Engineering has observed the setup and it is our finding that the permanent foundation and anchoring system (including footings, piers, anchoring and bracing systems, and connectors) for the home at 522 Deer View Dr., Sanford, NC 28326 meets HUD standards as set forth in FHA's Permanent Foundations Guide for Manufactured Housing (HUD-7584). Specifically, the permanent foundation and anchoring system for the home is structurally sound as built. No evidence was found to indicate that the home has been moved from its original installation site.

Thank you for using D. Allen Hughes Engineering for your evaluation. If you should have any questions pertaining to this report, please call me.

Sincerely,

December 14, 2021

D. Allen Hughes, P.E., President
