Good morning, Donna!

The name of the contractor that started the work to convert my garage into a bedroom was G & G Contractor Company and the owner's name is Willie Green.

This contractor removed the double garage door, built a floor up to house level, installed walls and doors for hallway entrance to outside, installed walls and doors for bedroom, bathroom and closet. Contractor partially completed plumbing and laid tile in bathroom, installed tankless water heater, installed 2 windows in bedroom and laid faux wood flooring in bedroom and hallway.

G & G Contractor Company referred me to Bell's Electric Company. Bell's Electric was hired to pre-wire the entire bedroom project and the tankless water heater. Bell's Electric was to return to complete wiring of all cam lights, ceiling fans, bathroom heater, etc.

I can't believe what has occurred. Thank you for your assistance.

Rose

Good morning, Rose. I received your paperwork yesterday, but there are a few sections that still need information.

Please date the land use application. Add the square footage on the land use application at total heated sq. ft. under the addition/accessory/other that you circled. I need the building application completed either with your signature on each contractor information line or the name of the contractors you will be using. Also, I need an email stating the name/address/ of the contractor that did a lot of the work already and what he did before he was let go. Once, you decide who will do the work, then you can complete another application with their information.

Thank you,

Donna Johnson
