Holly Springs, NC 27540

**RE: Steel Trusses in New Garage Construction  
Holly Springs, NC**

Dear Mr. Berkelaar:

Pursuant to your request, I have reviewed and determined that the steel trusses that are being used for the primary framing members in the lean-to portion of the new garage construction are adequate to carry the intended design dead loads, live loads, and wind loads, as required by the 2018 NC Residential Code.

If you have any questions, or need additional information, please feel free to contact me.

Sincerely,

Chris Jackson, P.E.
