RE: Structural Foundation

Subject: 328 East Erwin BLVD
Erwin, NC 28339
Lot 4 and Lot 5

To Whom It May Concern:

Our office has performed a structural evaluation of the subject properties referenced above on April 19, 2022. The installation of the foundation pier support "Minute Man XI2" stabilizing system was found to be acceptable for the over height of the CMU piers installed. All installation must meet the requirements for Minute Man XI2 stabilizing system installation methods for Wind Zone 1, the manufactured home installation methods and the pertinent NC codes. No recommendations for additional foundation support are issued at this time.

If we may be of further assistance, please feel free to call.

Respectfully,

DocuSigned by:
