Re: Manufactured home piers exceeding height limits from left side of home.

On August 25, 2022 at 11:00 am an inspection was conducted at 302 Mason Hill Lane, Lillington, N.C. 27546 on piers exceeding the height limits. The X12 strut system was used because of the height of piers from left side of the home. Two X braces have been installed underneath the manufactured home. Easy street movers a professional set up and delivery company was used to transport the double wide manufactured home from Heavenly Homes 127 Smith Road, Princeton, N.C. 27569 to 302 Mason Hill Lane, Lillington, N.C. 27546. They are trained for correct and safe set up and installation of anchor systems best suited for zone 1.

At this date and time the item above was the only item inspected by the engineer.

Cordially,
Michael A. Cavnar P.E. #026912
