Subject: RE: site plan

Hey Kimberly...yeah lots of flood plain and Conservation zoning. However, since this will be so close to the front and away from the fp, I don't think any more info will be needed

Thanks,
jay

Subject: site plan

Can you look at this for me please. The pin # is 0529-52-0413 It's in the 100 year flood plain and it's conservation. I have attached the site plan of where they're wanting to place the mobile home.
