RE: Harnett County Land Use Application # BRES2206-0013

Mr. Matthews:

The Harnett County Department of Public Health, Environmental Health Division on 06/16/2022 evaluated the above referenced property at the site designated on the plat/site plan that accompanied your existing tank application. According to your application requesting a 20X24 addition, the evaluation was done in accordance with the laws and rules governing wastewater systems in North Carolina General Statute 18A.1950 including related statutes and Title 15A, Subchapter 18A, of the North Carolina Administrative Code, Rule.1950 and related rules.

Based on the criteria set out in Title 15A, Subchapter 18A, of the North Carolina Administrative Code, Rules .1950, the evaluation indicated that the site is **UNSUITABLE** for the addition requested. Therefore, your request for an existing tank is **DENIED**. The site is denied based on the following:

_____ 15A NCAC 18A.1950a {16} - Any swimming pool must be 15' from any part of septic system.

_____ 15A NCAC 18.1945{b} - Each lot shall have original septic system plus repair area.

_____ 15A NCAC 18A.1950 {10} - Any swimming pool to be 15' from septic tank and/or from drain line.

_____ 15A NCAC 18A.1950{c} - Nitrification fields and repair areas shall not be located under paved areas or areas subject to vehicular traffic.

X Existing Tank Application Denied. Septic tank is located under previous addition. Current owners bought as such. Septic tank and drain field (more than likely) will require relocation for approval and expansion to 3-bedroom SFD. The following are required for revisit:

- (1) Revise application and applicable fees to an expansion/relocation application
- (2) Call 811 locating service to locate all existing utility lines (call with questions)
- (3) Locate rear survey irons on back two (2) corners and re-flag rear and right side property line accordingly.

Note: All attempts would be to maintain existing well. Note: 50ft septic setback required. Well abandonment may be required due to setback, elevation, contour, existing line location, etc.

Your application will be put on hold until the selected items above have been addressed.

When completed, **please call Central Permitting at 910-893-7525 to confirm** that the items mentioned have been corrected. We will then reschedule your property for evaluation. If you have any questions or concerns please call 910-893-7547 Monday through Friday from 8am – 9am.

Sincerely,

Andrew Currin, R.E.H.S
Environmental Health Program Specialist
