Re: Existing Tank Application: # BRES2206-0017

To whom it may concern:

An attempt was made to evaluate your property for the purpose of issuing an existing tank permit. The evaluation could not be completed for one or more of the following reasons.

- 1. Uncover Outlet lid on septic tank and break seal. (\$25.00 fee incurred).
- 2. Have system pumped out
- 3. Replace Sanitary T

4. Other – Disapproved – Septic Encroachment – Proposed patio encroaches on septic system. See Septic Operational Permit (5/21). No permanent structure (concrete, footings, buildings, etc.) can be approved on top of septic area. Ungraded, non-permanent patio pavers approvable if documented as such. Revise land use application, site plan, and building plans accordingly and reconfirm if additions are requested. Note: All pre-tank plumbing requirements are handled by plumbing code and not approved with existing tank approval. Proposed kitchen appears substantially downhill from septic tank.

Your application will be put on hold until the selected items above have been addressed. When completed, **please call Central Permitting at 910-893-7525 to confirm** that the items mentioned have been corrected. We will then reschedule your property for evaluation. If you have any questions or concerns, please call 910-893-7547.

Sincerely,

Andrew Currin, R. E. H. S.
