Re: Existing Tank Application: # BRES2206-0060

Mr. Medrano:

An attempt was made to evaluate your property for the purpose of issuing an existing tank permit. The evaluation could not be completed for one or more of the following reasons.

____ 1. Uncover Outlet lid on septic tank and break seal. (\$25.00 fee incurred).

____ 2. Have system pumped out

____ 3. Replace Sanitary T

X 4. Other – Multiple Issues – House box not marked onsite. Site plan and setbacks appear questionable. Remark house and revise accordingly if varied for site plan. No property lines marked. Mark property lines with provided flags or stakes. Existing well proximity is unapproved. Site is home to a former Mobile Home greater than 20 years ago. Existing uncovered septic tank and drain field shall be located, identified, and inspected prior to any permit approvals. Coordinate with a licensed septic contractor or septic pumper to inspect existing system for structural integrity and function. Lot has overgrowth with dense vegetation for 20 years and system has been out of service. Advised to have licensed septic inspector coordinate with county inspector or provide septic inspection report.

Your application will be put on hold until the selected items above have been addressed. When completed, **please call Central Permitting at 910-893-7525 to confirm** that the items mentioned have been corrected. We will then reschedule your property for evaluation. If you have any questions or concerns, please call 910-893-7547.

Sincerely,

Andrew Currin, R. E. H. S.
Environmental Health Program Specialist
