**Re: Existing Tank Application: # BRES2206-0069**

Mr. & Mrs. Stiltner:

An attempt was made to evaluate your property for the purpose of issuing an existing tank permit. The evaluation could not be completed for one or more of the following reasons.

- 1. Uncover Outlet lid on septic tank and break seal. (\$25.00 fee incurred).
- 2. Have system pumped out
- 3. Replace Sanitary T

**4. Other – Disapproved – Septic Encroachment – Proposed pool appears to encroach on existing septic field location. Septic field highest line flagged onsite (red). Pool not marked onsite but clearly appears to not need 15ft septic setbacks. Pool shall be pushed closer to the road for approval. Pool must be 16.5ft from flagged septic area (15ft setback + 1.5ft to edge of ditch). Lot lacks available space to relocate septic field and still have available repair field area. Private soil scientist consultation and proposal required of septic area and repair area for pool placement.**

Your application will be put on hold until the selected items above have been addressed. When completed, **please call Central Permitting at 910-893-7525 to confirm** that the items mentioned have been corrected. We will then reschedule your property for evaluation. If you have any questions or concerns, please call 910-893-7547.

Sincerely,

Andrew Currin, R. E. H. S.  
Environmental Health Program Specialist
