Footing Inspection Letter
Harnett County Permit #: BRES2207-0055

Based on the request of the Contractor, I inspected the excavated footings of the addition for code compliance. My assessment and recommendations are as follows:

- The footings for the addition have been excavated to the proper dimensions and depth. The footings have the proper density (2000 PSF). The Contractor may pour the concrete.

The addition footings meet all the requirements of the 2018 North Carolina Building Code for Residences.
