Yeah, it is OK. Randy found it in the Ordinance that this 50% rule is only part of criteria that could be applicable if in the front yard.

Also, make sure she is more specific w/ the intended use of this bldg as listed on the LU app....ex personal storage, or a business, etc.

Home Occupation: # Rooms: _____ Use: _____ Hours of Operation: _____

Addition/Accessory/Other: (Size 40x60) Use: Metal Storage Barn Clo
with 14x40 lean to

TOTAL HTD SQ FT _____ GARAGE _____

Sorry for any confusion,

I have attached my Residential Land Use Application & REVISED Site Plan to construct the proposed barn in the SIDE YARD.

Can you please take a look at The REVISED Site Plan to make sure I am within Dept Regulation to construct in Side Yard? and make sure Jay Sike approves. I just wanted someone to look at it before I came in and submitted an Application and paid for the Environmental Inspection of the existing septic tank.

Thanks so much for all your kindness. This is the 1st time I've ever done anything like this and I just want to make sure you have all you need!!!
