Re: Footing Inspection  
624 Gainsborough Ln  
Cameron, NC

Dear Sirs:

An inspection has been performed on the prepared footing excavations, including the perimeter skirting footing excavations, for the manufactured home at the location described above. Upon inspection, the footings, including but not limited to, soil capacity, footing dimensions, step down boards, and footing depth indicators were found to be in accordance to the manufacturer's plans and the applicable sections of the State of North Carolina Regulations for Manufactured Homes. The footings were approved for placement of concrete.

Sincerely,

  
Travis M. Person, PE
