Subject: **Structural Inspection**  
**260 Azalea Drive**  
**Spring Lake, North Carolina**  
**NSE Project #2300560**

Dear Mr. Lopez:

On Jan. 18, 2024, Neal Smith Engineering, Inc. (NSE) performed a site inspection at the above referenced location. The purpose of the inspection was to perform an insulation verification.

Heat was added to the home and NSE performed a thermal inspection with a thermal imaging camera to look for any gaps in the insulation. NSE also removed electrical plates to visually verify insulation type and as a back-up to the thermal imaging camera.

*This letter certifies that the house was insulated per the NC Residential code as best as can be told using the above method.*

Thank you for the opportunity to do business with you. If you have any questions or comments, or need additional information, please do not hesitate to call.

Sincerely,  
NEAL SMITH ENGINEERING, INC.

Neal Smith, PE  
President
