Ref. Concrete Building Pad and Foundation for 30' x 40' Metal Building with 10' Lean To in Front of Building @ 125 Patsy Lemons Lane - Lillington, NC

After reviewing the plans for the above referenced project and after a visual inspection along with a review of pictures taken during construction at the above referenced address, I certify that the concrete slab and foundation, as poured in place, is sufficient to meet or exceed NC Building Code Standards for the metal building as constructed.

Should you have any questions please do not hesitate to contact me.

Sincerely,

Donald D. Paschall Jr.
