Good morning,

We are working on scheduling a roof replacement for Joyce Toy, at 252 East Lemon St. Coats, NC. I know permits are not typically required for roof replacements, but we are having to install intake ventilation, and remove and replace all decking, to comply with the current building regulations, and were told we would need to get a permit in this case. I have attached the application, but if there is additional information needed, please let me know.

Thank you,
