On February 22, 2025 at 10:00 am a footing inspection was conducted at 112 McKoy Town Road, Cameron, N.C. 28326. The footings for front porch deck and rear porch deck are in place. The support post rest in the center of the footing and the top of the footing is level for full bearing support of post. The width, length, and thickness of the footings are sufficient. This was the only items inspected by the engineer at this date and time.

Cordially,
Michael A. Cavnar P.E. #026912
