Attachments: Foundation Survey Requirements.pdf

I'm going to process this now. I just wanted to make sure you were aware that you will be required to get a foundation survey before the final inspection. I have included Ruth from Clayton Homes in this email as well.

We will just need the foundation survey before the zoning inspection can be scheduled. You will have to reach out to a land surveyor to have that done.

I just tried calling you, and when do we need to get the foundation survey and how much is that?

To start the process yes you will need to pay the \$750 and that will get it sent to Environmental Health. I just wanted to let you know that with the 35 ft front setback you will be required to get a foundation survey. You can call me directly at 910-814-6435 to pay.

So do I just need to pay the 750 so we can move forward with this process?
