This Agreement, made and entered into this the _____ day of _____, 20____, between Harnett Regional Water (HRW), as operator of the water supply and distribution system indicated above, (hereinafter "County") and _____ (hereinafter "Owner").

WITNESSETH:

Harnett Regional Water, as operator of the water supply and distribution system indicated above, sells water to citizens and residents of Harnett County. HRW also treats wastewater for its citizens and residents where such treatment facilities are located within Harnett County. The Owner above named desires to purchase water and/or sewer treatment services from the County and further desires to enter into this Agreement with HRW to obtain these services described.

NOW THEREFORE, In consideration of the mutual promises herein set forth, it is agreed by HRW and Owner as follows:

1. The property which is the subject of this Agreement and to which water shall be supplied and/or sewer treatment services provided is described as follows:
2. Owner agrees to pay to HRW the amount of _____ per connection as a tap-on charge, said amount being due upon the execution of this Agreement by Owner.
3. HRW, pursuant to its Rules and Regulations, agrees to provide a water and/or sewer service connection on the above described property and to provide potable water and treatment of said wastewater to the Owner, provided that there is an existing water line capable of providing a connection on said property. **IN THE EVENT HRW DETERMINES THAT THERE IS NO EXISTING WATER AND/OR SEWER LINE CAPABLE OF PROVIDING A WATER SERVICE CONNECTION TO THE PROPERTY DESCRIBED ABOVE, ALL MONIES PAID PURSUANT TO THIS RESIDENTIAL WATER/SEWER USER AGREEMENT WILL BE REFUNDED TO OWNER.**
4. Property owners shall not be required to make a deposit provided they are approved by the On-line Utility Database procedure described in Section 19 (d) of the County Rules and Regulations. If not approved by the above-mentioned procedure, the owner agrees to pay a minimum of Fifty Dollars (\$50.00) as a water deposit (and \$50 as a sewer deposit, if water and sewer tap requested, \$100 total). This deposit will be returned without interest after one year of no penalties as provided by said Rules and Regulations. Said deposit shall be due upon the execution of this Agreement by Owner.
5. Owner grants HRW, its successors and assigns, a perpetual easement in, over, under, and upon the above described land with the right to erect, construct, install, lay and thereafter use, operate, inspect, repair, maintain, replace and remove water and/or sewer lines, meters, meter service facilities and appurtenant facilities thereon, together with the right of ingress and egress over adjacent land for the purposes mentioned above.
6. Owner shall install and maintain at Owner's own expense a 3/4 inch cut-off valve on the Owner's side of the HRW's water meter and a service line which shall begin at the meter and extend to the dwelling or place of use, and such other facilities as may be required by the Inspections Section of the Harnett County Planning and Inspections Department. The service line shall connect with the water system of the County at the nearest place of desired use by the Owner, provided HRW has determined in advance that the county water system is of sufficient capacity to permit the delivery of water at that point.
7. Owner agrees to comply with all requirements, rules and regulations applicable to water users adopted by the Division of Health Services of North Carolina Department of Human Resources. Owner further agrees that upon and after the date a plumbing connection is made between the Owner and HRW, Owners shall allow no cross connection to exist between HRW's system and any pipeline containing a contaminant or any pipeline connected to other present or future sources of water.
8. Owner agrees to pay for water and/or sewer service at such rates, time, and place as shall be determined by HRW and agrees to the penalties for non-compliance with the above, as set out in HRW's Rules and Regulations.
9. HRW shall install a water and/or sewer service connection for the Owner, and Owner user charges shall commence when the water meter is requested by the owner and installed by HRW. Consumers shall be responsible for paying the minimum monthly water and/or sewer bill whether or not water and/or sewer is actually used as long as the service is not turned off by request of the consumer.

2/23/2024

9A. THIS PARAGRAPH APPLIES ONLY TO AGREEMENTS FOR RETROFITTED SPRINKLER CONNECTIONS.

No monthly minimum charge will be made to Owner except during those months when the connection has been used. The Bill rendered will be for gallons used, but in no event less than the applicable minimum bill. A separate bill will be provided for the connection and the same schedule of rates applicable in the service District shall apply to it. No sewer charges will be made to Owner for water used through the connection. The Retrofitted Sprinkler Connection shall not be connected to any plumbing or other pipeline where residential water there from is required to be discharged into the public sewer system.

10. Owner agrees to abide by the Rules and Regulations of HRW as from time to time promulgated by the Harnett County Board of Commissioners, and further agrees to abide by such other HRW ordinances, rules and regulations with respect to water and/or sewer service connections, as are adopted by the Harnett County Board of Commissioners. Additionally, Owner agrees to obtain the necessary inspections and permits related to water and/or sewer service connections as required by the Building Inspections Division of the Harnett County Development Services.

11. HRW shall purchase and install a cutoff valve and water meter for each service. HRW shall own said meter and shall have the exclusive right to use it.

12. Owner agrees that there shall be one water and/or sewer connection for each building or structure requiring connections on the above described property. A tap-on charge shall be due for each such connection.

13. HRW shall have final jurisdiction on any question of location of any service line connection to its distribution system; shall determine the allocation of water to Owner in the event of a water shortage and may shut off water to Owner if Owner allows a connection or extension to be made to Owner's service for the purpose of supplying water and/or sewer service to another user.

14. In the event User transfers title or agrees to transfer title to the above described property, before or after such connection, User agrees that this agreement shall run with the property title thereto and agrees to advise the new owner with respect hereto and furnish new owner a copy thereof.

QUITCLAIM DEED

This deed, made and entered into this 2nd day of February, 2025, by and between

David Earl McAllister, individually and as heir and spouse Annette McNeill McAllister, individually and as heir ("Grantors") residing at 150 McAllister Ln, Lillington, NC 27546 and Darita Jefferson and spouse, DAngelo Jefferson ("Grantees"), residing at 150 McAllister Ln, Lillington, NC 27546

WITNESSETH:

That said Grantor, for and in consideration of the sum of \$10.00 Dollars to her in hand paid, the receipt of which is hereby acknowledged, have remised and released and by these presents do remise, release, and forever quitclaim unto the Grantee and his heirs and assigns all right, title, claim, and interest of the said Grantor in and to a certain tract or parcel of land lying and being in the County of Harnett and State of North Carolina, in the City of Lillington, and more particularly described as follows:

PLEASE SEE THE ATTACHED EXHIBIT "A"

See Deed Book 915, Page 203, Harnett County Registry.

To have and to hold the aforesaid tract or parcel of land and all privileges thereunto belonging to him the said Grantee and his heirs and assigns free and discharged from all right, title, claim or interest of the said Grantor or anyone claiming by, through or under her.

This conveyance is made pursuant to N.C.G.S. 39-13.3, N.C.G.S. 52-10 and N.C.G.S. 52-10.1 in order to vest title to the within described property solely in the Grantee herein, free and clear of any right, title and interest of the Grantor herein. (For purposes of this provision, the "Grantor" shall mean any Grantor other than the individual Grantee spouse in whom title is to remain vested herein). This conveyance is made after fair and reasonable disclosure of the property and financial obligations, both real and personal, of each spouse to the other, as between Grantee and Grantee's spouse Grantor.

For this purpose and with regard to the property and any interests and rights described herein or related thereto, by execution of this deed, the Grantor hereby waives, releases and quitclaims forever unto the Grantee (1) any and all right to share in the estate of the Grantee upon the Grantee's death as provided in N.C.G.S. 29-14, or pursuant to a Last Will and Testament or codicil thereto of the Grantee, (2) all and every right to elect to take a life estate in said real estate pursuant to N.C.G.S. 29-30 upon the death of the Grantee, (3) all and every right to an elective share in the estate of the Grantee pursuant to N.C.G.S. 30-3.1 et seq, (4) any and all rights arising out of any action for equitable distribution under N.C.G.S. 50-20, (5) any and all rights arising from application of the community property laws of any state, and (6) any and all other rights and interests in said real estate which the Grantor now has or may hereafter have or acquire arising out of or accruing to said Grantor by reason of past, current or future marital relationship with the Grantee.

In Testimony Whereof, said Grantor has hereunto set her hand and seal the day and year first above written.

REQUIREMENTS FOR CONNECTION TO THE HARNETT REGIONAL WATER SYSTEM

1. You must first obtain a plumbing permit at the Harnett County Development Services Central Permitting Division (located at 420 McKinney Parkway in Lillington). The cost of this permit is \$40 for water and \$50 for sewer. If you are building a new house, this permit may be included in your building permits; check with Central Permitting (910-893-7525).

NOTE: If you live in another county and are connecting to the HRW's system, go to the inspection department for that county to obtain your permits and requirements.

2. Upon receiving your plumbing permit, and after the taps are installed, you may proceed with your work.

3. Contact a licensed plumber and arrange a time that your line can be installed. You may install your own service for your residence. If the new service is for a rental property, you are required to hire a licensed plumber. If you are hiring a plumber, you may want to obtain several estimates for your job. It is not permissible for a friend or neighbor to connect your service. It must be the property owner or a licensed plumber.

4. Before you or your plumber begin digging, especially in State right-of-ways, you should contact North Carolina One-Call Center at 811 and have the area marked for under-ground power, cable, or phone lines. You will need to contact NC One-Call 48 hours prior to beginning the work in order to allow adequate time for notification to all pertinent utilities. You should advise the operator of the date and time you will be performing the work and a detailed location of the service. They will contact all the necessary utilities in that area.

5. You are required to install a minimum of a 3/4" water line from the building to the water tap and a 3/4" cut-off valve on your side of the water tap. The cut off valve installed on the customer side of the tap must be in a separate box. It is not permissible to install the customer cut-off valve inside the meter box. This will benefit you should you need to turn your water off for repairs or leaks. Excessive water could be lost while waiting for a meter technician if this valve is not installed. For standard connections, 3/4" pipe should be used from the meter to the residence/building being connected, with a minimum pressure rating of 160 psi. We recommend that you also install a pressure reducing valve at your service to control the amount of pressure feeding into your line and prevent excessive pressures. This reducer is especially important on residences with older plumbing. The Inspections Department also requires a cut-off valve at the house or building.

6. After the customer cut-off valve has been installed within 12" of the water tap and attached to the setter, contact our office at 910-893-7575 to order the installation of your meter at least **48 business hours prior** to when you actually need the meter set. **Be sure that the cut-off valve has been installed on your side of the meter box before calling for your meter. This cut off valve must be within 12 inches of the meter box in a box of it's own. Second call outs for meters will be charged a service fee. (This cut off valve is required by ALL customers in all counties.)**
