Comments and Clarifications

Job #: Q-2401843	Description: Cotton	Notes: Roof Trusses This quote is based off of information received on 7/30/24.
Customer: PHC Restoration	Contact:	
Address: 1601 E McNeill St Lillington NC 27546	Site Address: 300 Grameta Ln Lillington NC	
O: (910) 814.2502 Jeremy (910) 890.4039		

Truss Design Date:

1. All exterior/bearing walls are 2x4 (3-1/2" wide) unless otherwise noted.
2. All trusses and engineered wood require proper bracing and blocking. Some bracing guidance is provided in our Field Installation Package. However, "systematic" or "whole house" bracing is the responsibility of the Engineer of Record.
3. Overhang - - horizontal truss dimension is 12". Sub-fascia and fascia are beyond.
4. All perimeter dimensions on layout reflect outside to outside of the stud. Wall studs are to line up with edge of slab, and sheathing is beyond.
5. This quote is based off of information received on 7/30/24.
6. Peak Truss has attempted to help customer collect field information and develop a new truss design for this project. This design has been presented and reviewed. Customer understands, accepts, and approves these designs for fabrication.
