Categories: Waiting on Response

I still need the building application completed with owner info and then on the GC section you can sign your names, but this will need to be done. Also, please sign the back of the building application for me as well. Can you please resend the land use application for the barn and let me know the size of it as well. I will get that done for you today. There may be plans needed for these buildings, and when I get the barn I will let you know about that as well.

Sincerely,

Donna Johnson

Thanks for the confirmation Donna!

We are not planning to sell. Does that change anything for the application?

Best

Good afternoon, Sravani. I did receive the appropriate documents to begin the permit process. Are these greenhouses to house plants for selling on site?

Sincerely,

Donna Johnson

Subject: Application for land use permit - 2 with Greenhouse on Thomas Kelly Road, Tract #3

Hello!

Please find the attached application with a design map for our farm land in Sanford, Harnett County. The property is located on Thomas Kelly Road. The PIN # is mentioned in the form.

After your review and approval, We would like to construct a barn, a greenhouse and dig a well on the property. I sent another application for Barn.

Here is an overview of how we would like to use the land.

1. We will not construct any houses on the land. The purpose of the well is to water the plants and trees on the farm.
2. We would like to set up a 20*20 ft greenhouse by leaving an offset as mentioned in the drawing. We plan to build one ourselves when the permit is approved. So no GC info is provided on the application.

If you have any questions please let me know in a response email or reach out to me on 9198026528.

Thank You!

Sravani M
