TE&D Project No.: 2501-020589

To Whom It May Concern;

As requested, a representative of Tyndall Engineering & Design, PA (TE&D) made a site visit to observe the following issue:

- 1) Inspect and analyze the existing concrete slab to support the proposed 20' x 40' steel site built metal building.

The following conclusions and recommendations were noted:

- 1) Based on our visual observations, review of client provided photographic evidence, analysis, and the results of our field-testing program, the existing concrete slab on grade is adequate as constructed to support the anticipated loading conditions proposed 20' x 40' steel site built metal building.

We appreciate being able to assist you during this phase of the project. If you need further assistance or require additional information, please do not hesitate to contact us.

Sincerely,
Tyndall Engineering & Design
