

The screenshot displays a mobile application interface with a vertical list of items. Each item is composed of a colored bar at the top, a small icon (either a person or a key), and a date label (e.g., 'Fri 7/18'). The items are separated by thin horizontal lines. The background is white, and the app's status bar is visible at the top.

Thank you!

Also, will this be a prefab shed or do you have plans for this one?

Please see the attached Land Use Application.

We will need this filled out (Please fill out the top portion and put the size of the shed and its use on the Other/Accessory/Addition option line- we need the size and what its used for) in full, including the Utility portion and General Property questions. If the property is an estate and you have the shed will not interfere
