I was checking on the status of the EH permit this morning. When I called them this is what I was informed about by Oliver. He said the attorney general will not back them if this information is not on the application. And if something happens and they get sued they will be sued individually. I did not know until now that this was required. I will let him know the approximate number.

Thank you,

**Subject:** Re: Solid Start Kitchen Renovation

Donna,

I can't answer that except with approximates. We currently are not serving any meals. All are being catered. Once the kitchen is done and we can begin serving again, we will serve somewhere between 120 to 150 meals daily. Please remind Oliver that all the serving of meals will take place in the new building which has its own septic system. The kitchen we are remodeling will be used to heat pre-prepared food which will be taken across the parking lot to the new building. No meals will be served (they will be prepared) in the existing blue building for the childcare. Hal Owen's letter states that with the new septic modifications we could serve up to 195 per day. That is unlikely to happen any time now or in the future.

Why is Oliver needing to know this now? Seems we are dead in the water until plans are drawn up according to your last few emails.

Thanks,

Thomas Simpson
