RE: Lot 68 Cokesbury  
Open floor framing inspection

Dear Mr. Culver:

A site visit was made to the above referenced address to perform an open floor framing inspection. Review of the "as-built" open floor framing revealed that all joists and girders were installed per the engineered drawings. All point loads were blocked to the girders or foundation per the engineered drawings. The "as-built" floor system is adequate to support all applied loads.

Please call me if you have any questions.

Sincerely,

J.S. Thompson Engineering, Inc.
